PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building AI-powered and scalable web applications using **React, Next.js, FastAPI, Django, and Node.js**. I have worked on designing and developing **RESTful APIs**, implementing secure authentication systems (**JWT**) and integrating **LLM-based** features into real-world applications. My experience also includes deploying applications using AWS and Docker, setting up **CI/CD pipelines** and building end-to-end data-driven systems. I enjoy building clean, scalable solutions across AI systems and web applications.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript, TypeScript, Java
- **Frontend:** React.js, Next.js, Tailwind CSS
- **Backend:** Django, FastAPI, Node.js (REST API development, authentication, CRUD operations)
- **Databases:** PostgreSQL, MongoDB, MS SQL Server, Redis
- **AI/ML:** Machine Learning, Large Language Models (LLMs), LangChain, FAISS, Hugging Face
- **Cloud & DevOps:** AWS, Docker, CI/CD pipelines
- **Automation & Scraping:** Selenium, Puppeteer, Playwright, UiPath
- **Tools:** Git, GitHub, Power BI

WORK EXPERIENCE

Freelance Software Developer (AI & Full Stack)

Oct 2024 – Present

- Designed and deployed an AI-powered property valuation platform using machine learning models, delivering end-to-end features including backend APIs and frontend interfaces for real-time predictions.
- Created automation pipelines for web scraping and data processing using Puppeteer, and Playwright to streamline data workflows and reduce manual effort.
- Developed and deployed multiple scalable full-stack systems using React, Django, FastAPI, Node.js, and PostgreSQL handling API design, authentication and data processing.
- Integrated LLM-based recommendation systems and chatbots using LangChain and Hugging Face.

Robotic Process Automation (RPA) Developer

Sep 2022 - Oct 2023

DHL APSSC, Kuala Lumpur, Malaysia.

- Automated processing of 3,000–5,000 PDFs daily, improving efficiency by approximately 80%.
- Improved system reliability and reduced manual processing errors by enhancing existing automation solutions.

- Managed high-priority, critical support tickets and ensured timely resolutions.
- Designed and developed end-to-end automation solutions for various business units using UiPath.
- Led TAT, UAT, and country-level deployments to ensure successful rollout of automation projects.
- Built Power BI dashboards to support data-driven decision-making and business insights.

Web Developer (Internship)

Jan 2022 - Aug 2022

HomeCrowd Sdn Bhd, Kuala Lumpur, Malaysia

- Assisted in testing and debugging a Laravel-based system to enhance performance and stability.
- Implemented UI enhancements and new features to improve user experience.
- Collaborated with developers for planning and development of Web3 projects.
- Maintained and updated technical documentation to ensure accuracy and consistency across development phases.

EDUCATION

Bachelor of Computer Science and Information Technology

2019 – 2022

Specialization in Computer System and Network

Universiti Malaya, Kuala Lumpur, Malaysia

PROJECTS

AI Property Valuation Platform

Technologies: React, FastAPI, PostgreSQL, Machine Learning.

- Designed and deployed an end-to-end machine learning-based system to estimate property prices using structured data and predictive modeling techniques.
- Built scalable REST APIs and integrated frontend for real-time valuation insights.

Website Link: <https://myhomecrowd.com>

InsightOps (Real-Time Application Monitoring & Incident Management Platform)

Technologies: Next.js, Node.js, PostgreSQL, Redis, Socket.IO.

- Built a scalable real-time platform for application monitoring, centralized logging, health checks, and incident management.

Website Link: <https://insight-ops-gamma.vercel.app>

ShopLocal (AI-Powered E-commerce Platform)

Technologies: React, Django, PostgreSQL, LangChain, LLMs

- Built and deployed a scalable full-stack e-commerce platform with AI-driven product recommendations.
- Enhanced user engagement through LLM-based chatbot interaction.
